

Marko HATLAK BAND

With the new project Marko Hatlak BAND, Marko Hatlak tries his hand at pop, latino, funk and rock. The inspiration he gets from Jamiroquai, Stevie Wonder, Michael Camilo, Prince and Jože Privšek is translated into energetic, entertaining, rhythmical, dance and youthful music.

Ever since the beginnings of his career, accordionist Marko Hatlak likes to switch between various music genres - from classical and contemporary art music to tango and ethno - and now he has broadened this spectrum even further. In the Marko Hatlak BAND project, he presents himself as accordionist and vocalist as well as author of lyrics and music.

The music characterised by the band sound is virtuosic and pointedly rhythmical.

Hatlak assembled top-class musicians on drums, percussions, bass, keyboards and violin that inspire him with their virtuosity and positive energy. The stage chemistry among the performers is playful and at times humorous. The band released their first album in the autumn of 2018 at Dallas Records.

Musicians:

Marko Hatlak – accordion, vocals

Žiga Kožar – drums

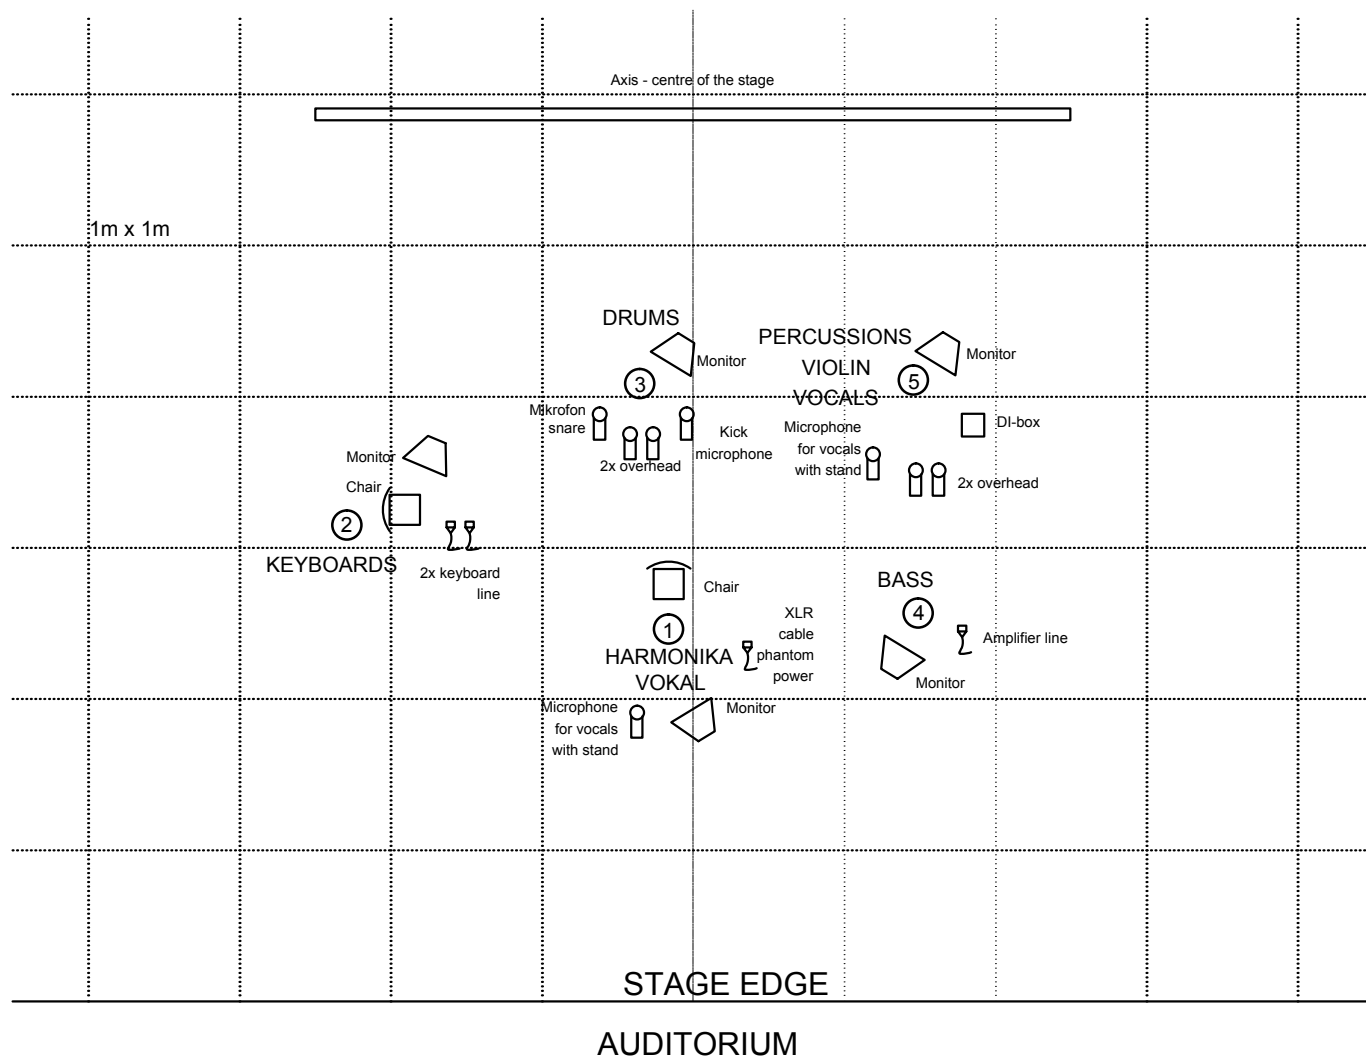

Leon Firšt – keyboards

Erik Čebokli – bass

Lazaro Zumeta – percussions, violin
